## NEMPHIS APPEAL FINANCE AND TRADE.

MESPEIS, September 14, 1868. The movement in Bonds and Stocks during the week have been light and quotations are much the same as last week. Our banks are disposed to hold all their currency well in hand for the movement of cotion, and are not investing in outside securities except upon orders. Among the latest sales reported are forty shares Memphis and Charleston Railroad stock at Mc and Shibocity bonds all aded to on Sat-

ern, 84.55 50 per head; Tennessee, \$2.37 50 as to quality.

WHEAT—Active demands from city millers; No.1, 25.25 to No.2, \$1 25.35 to 10.15 to 1

the week and quotations have been tending destrawards. The New York market opened to day at 145/c, and closed at 145/c. The only important sale reported to day was one of 5520 at 145/c, but smaller lots were taken at 142. We have no demand to report except for shipment, and selling rates to outsiden are within ment, and selling rates to cutsiders are within a fraction of New York rates.

City Scrip is in some request, but the offering rates are too low to develop amounts of any rates within the difference of the control of

size, while the demand is not active excess while they sell at 80c, which is a large margin NATIONAL BANK even on small warrants. We quote one sale of a few hundred dollars made by a dealer at 750 and another at 7sc. County Warrants are scarce and in demand. Dealers take all offered at 55g/sc. Selling at 68.270c, as to amount.

Police Scrip is gradually improving, and will, no doubt, go up to Sc. Dealers offer Scrively, and well reluctantly at 85c. The New York Stock Board quotations were at moon to-day as follows: 5 Ms, congrous of at mon to-day as colows: att, conjunt of \$1,14; WI, 132; '04, 94; '85, 11; new issue, \$7; '07, 87; '05, 10; 10-so, coupons, 1034; bonda, dnll; Old Tennessee bonds, 695; new, 685.

A New York exchange says that business mon always expect a dull season of trade during the excitement of a Presidential confest. Experience teaches them this lesson, and they argue that it is a natural consequence of a great political contest, when men are willing to drop F. S. DAVIS, everything for the sake of party. It seems, probable, however, that the present season will be an exception to the general rule. The fail trade is now just opening, and there are indi-cations that it will be unusually heavy. Country merchants are beginning to flock into the city in large numbers, and it is noticeable that the bills which they buy are generally heavy.

COTTON. The news from all sections regarding the cowerms are going through the fields for a third time, while in all sections where the rains have extended it is feared the rot will cut short the crop fully one-third to one-bast. Two million bales is an outside estimate of the result of this year's labor, and the best informed of our cotton men have given up all hope of any better

Cotton has declined steadily during the week Uplands in Liverpool opened for the week at 1854, and closed to day at 1054 and declining. The New York market for the week opened with Uplands Sec. Uplands in that market to- "Schoenberger's Nails," day opened dull and nominal, and at noon was very dull and unsettled, nominally ic lower; Low Middlings, 20046; Middlings, 200; Orleans, 20040, and closed dull with quotations unchanged. It will be seen that Middlings have declined to in New York during the week.

The market has been somewhat excited under
the receipts of new cotton which have been gradally improving until they have reached to-day the handsome sum of 183, or in all, for the san-son, ab at 30 bales. This smount will be quadrupled during the coming week, and would have been greater now had it not been for the rains, which have been very heavy the past four or five days. As fast as the crop comes is it is put upon the market Prices have declined from 17c. to 25 to uring the week and are still lending NATHAN BROTHERS & CO. placed upon the market to day by Williamson, Hill a Co. It consisted of 20 bales Middings which was sold at 2.7 c. Other sales were made as follows: One bale Middling, Dije; one hale Low Middling, 21%c; two bales Low Middling. 22c; two bales good Griffmary, 275c. The sales for the week in this market will foot up 120 bales. Sales in Liverpool for the week ending Friday evening last, 0,000 bales. Stock on hand, 480,000, of which 182,000 were American, Stock affoct at that time, 600,000 bales, of which only field bales were American. Sales in New York for the week ending Saturday, 7500 bales. Stock 12,000 bales. Week's receipts at all U. S. ports, 11000 bales.

Steck on hand to-day, 12 m ..... TRADE.

The general markets during the week have rly active, but not so much so as they yould have been had the weather been settled. The heavy rains which have fallen since our last has had a bad effect upon the planter and the merchant, causing the former to hesitate about sending forward his orders for supplies until the extent of the damage is known, and he latter in some instances to fill orders with less alacrity than they would have done had the weather been propidious. westher been propilions.
Wheat comes in very slowly. Already our

milles have been compelled to buy in other markets in order to keep their mills going. Prices are very firm and are tending upwards nough the flour markst, so far a up country brands is concerned, was never duller than at resent. Buyers seem to have no desire to ough flour at present, and the sconer prices give away, which they must do ultimately, the ter for the trade.

tre weakening on all a indeed to be short of all 100 bbls. Rectified Whisky. the prominent packing points, while the aup-ply of cured meats is ample for all purposes until the hog crop comes in. The produce market is irregular. There are very few potatoes or apples coming in. Corn is getting scarce. The steamers coming 60 barrels High Wines. in from above bring very little. Outs also are falling off in receipts. Hay is source, while choice is almost entirely out of mark t. The grocery market is more active and prices are very much the same as last week. Coffee

s in good supply and firm, while sugars are steady and in iair jobbing demand.

The dry goods trade has, perhaps, shown more of an improvement than any other line of goods. While the demand is good in a local way, we notice the advent of country buyers, all of whom are laying in their stocks. The decline in cotion has effected heavy goods of a staple character to some extent, but weelens and other winter styles are firm at last week's quotations. Stocks were never more complete or diversified than this year, and we are glad o announce that buyers, not seen before upoh our streets for many months, are again in the at factory prices, market buying liberally.

The shoe and boot trade of Memphis is one

of its great features, and we question whether such stocks can be found outside the markets of New York or Boston. Fail and winter wear of every description can be found in our shoe houses, and prices, though very firm, are lower than can be found in any city in the West.

Our shoe merchants will gladly duplicate any order at St. Louisville or Cincinnati prices, and can do it to any amount. They have not, however, yet become familiar with the Condunati trick of selling brogues at less than manufacturers' prices in order to sell a bill and make up their less upon other goods bill and make up their less upon other goods bill and make up their less upon other goods with the prices of which the buyer is not so familiar. But some of our country merchants, in a gentleman I cord friends and patrons.

we are glad to see, have opened their eyes, and nud that an order can be filled here at better figures than elsewhere, and are acting upon We have but little change to report in to bacco. The market is steady and unchanged but tending to better prices on all grades. The operations in this article have been somewhat ded by the new tax law. Whisky has been in bester demand durin

the week, and the market is nearly bars of high wines. Slocks of common and good are large, and prices are steady as quoted below. APPLES—There is none coming in of consequence, though there is a good demand at \$2.54 per bil, as to quality.
